lefkovitzj / README.md

Hello, world!

Who am I?

Hi there! My name's Joseph!

I'm a rising college sophomore who loves computer programming and software development! I particularly enjoy making practical and useful applications both for the web and as desktop applications.

I frequently use:

I occasionally use:

It is continually my hope and goal to become a better and more effective programmer.

I'm always open to opportunities to collaborate and would love the help of other programmers!

Feel free to reach out to me with any questions, requests, or ideas for future projects!

Pinned
